

IPMU 2012

Conference Announcement

14th International Conference on
Information Processing and Management of
Uncertainty in Knowledge-Based Systems
Catania, Italy, July 9-13, 2012

EXECUTIVE DIRECTORS

B. Bouchon-Meunier

Université Pierre et Marie Curie,
France

R. R. Yager

Iona College, USA

GENERAL CHAIR

S. Greco

University of Catania, Italy

VICE CHAIRS

G. Coletti

University of Perugia, Italy

L. Fortuna

University of Catania, Italy

B. Matarazzo

University of Catania, Italy

The IPMU conference is organized every two years with the focus of bringing together scientists working on methods for the management of uncertainty and aggregation of information in intelligent systems. This conference provides a medium for the exchange of ideas between theoreticians and practitioners in these and related areas.

In 2012 the conference will be held at the Engineering Faculty of University of Catania. Catania is one of the main economic, touristic and educational centre in Sicily, being an important hub of the technological industry, thus gaining the nickname of the "European Silicon Valley". Catania is renowned all over the world for the wonderful strength of Etna, the snow-covered peaks, the crystal clear sea of the Ionian coast, the historical and archaeological heritages, the baroque churches and palaces and the urban design (the downtown area is a World Heritage Site, along with the Val di Noto), the enogastronomic traditions and music, the innate warmth and hospitality culture of the people. From Catania, within a day, you can easily reach a lot of other important cities with touristic attractions and important archeological rests such as Taormina, Syracuse, Piazza Armerina and Agrigento.

Key dates:

October 15, 2011: Submission of special sessions

December 10, 2011: Submission of papers

February 25, 2012: Notification of acceptance

March 31, 2012: Submission of final papers
